Hi Don and Allison,

See Randy's request below. Are either of you able to answer his question? If so, please go ahead and send your responses directly to him with a cc to me.

Thanks!

Jayne

Subject: Time of transfer Question

Hello Jayne,

We are getting some interest in our time of transfer septic inspection rulemaking. Last Friday, we were invited to testify on the rulemaking to the House Committee on Energy, Environment & Water (the link is an audio file that has the Onsite topic starting approximately at 1:24:00 and is about 45 minutes long). One of the questions were asked that we need to answer is what other states have a Time of transfer program as a result of CZARA federal requirement. Maine has a voluntary inspection program that 'provides assurance to the federal government that the state of Maine has adequate administrative controls relative to subsurface systems'. Since this is a CZARA requirement that existing septic system inspection programs are required to be in place, our legislators want to know what other states have this in due to federal requirements (hopefully not being too redundant). Massachusetts has a Title 5 inspection program that came on in the 90's when I still lived there.

I'm hoping someone in EPA has ready access in their brain to this information request and you maybe know who that someone is. It's worth a shot.
